

T-Minus ____ days to Nov. 8, 2008.
Let's work together to fix this.
Let's return to the Pre-Nov. 16 status.
It was just and reasonable for all then.

Since Hawaii Smoking Ban!!!

(Medical Malady takes a stiff plunge according to Medical Experts)

Playing with numbers and coming up with Phony-Baloney stats is often a fun thing to do...BUT THERE'S JUST ONE DIFFERENCE!

WE can't do it with a straight face!

Don Weisman

of the American Heart Association has been swarming the Capitol like a crazed bee, pleading with lawmakers not to grant smoking exemptions to bar owners. Underlying his rabidly passionate plea is his claim (something to the effect), "Heart Attacks in Hawaii have dropped 25% in the last year since the ban". AND according to many sources, he was DEAD SERIOUS, with a STRAIGHT FACE!

If this astounding one year drop in Heart Attack were true, it would have made front page headlines in every major news outlet on the planet. It would have ranked as the #1 medical news of the decade. Just goes to show what our opposition will resort to, to railroad their agenda. Keep it up Mr. Weisman. You prove the point we've been making all along. NOTHING THESE RABID RADICALS SAY CAN ANY LONGER BE TAKEN AS THE UNDISPUTED TRUTH, CHISLED IN STONE! They are fueled and blinded by their agenda...common sense and business logic is OUT THE DOOR!

Distortion is their M.O.....Dishonest is their Word.
