There is no time left to continue this ludicrous experiment on our delicate economy...businesses are suffering badly, some are now on the verge of shutting down, tourism is beginning to feel the impact of this ban. We beseech you to quickly consider Common Sense, Business Wise decision making to fix this exploding problem before it is too late. Keep the original ban in place...just grant bar owners the Freedom of Choice to allow smoking or not. You CAN fix this now.

The Alliance.....either way, We Won't Forget.
